Years from first PRIDE appearance of the release to public release of the dataset
How to read
each dot = 2% of the tool's datasets
median, 95% CI (group bootstrap)
IQR; 10th–90th percentile
median, datasets released 2023–2025
ceiling: oldest release of the tool in PRIDE, to end of 2025
FragPipe and DIA-NN ages are capped by their short history in PRIDE (ceilings 2.9 and 4.8 y).
Diamonds are a composition check, not a trend: later windows admit older releases.
